UPDATE May 30, 2020: As detailed in thispost, Governor Cooper issued EO 142 on May 30, 2020, which extends the effective period of EO 124 through July 29, 2020.

Among other things, Governor Cooper's Executive Order (EO) 124 mandates that local government utilities submit reports to the State's Utility Commission. The EO required a weekly report, but the Attorney General's Office has changed it to a monthly report. The first report, which will reflect data from April 2020, is due by May 12, 2020. The reporting web form is available [here](#) and a Q&A from the Attorney General's Office is available [here](#).

For more information on all of EO 124's provisions, including the reporting requirement, see the following blog posts:
